3. This is examiner's statement of reasons for allowance.

Regarding claims 1, 3, 5, 9-13, 16-17 the prior art, either singularly or in combination, does not teach or suggest an exposure control device for adjusting an amount of light received by a focusing device and a photoelectric conversion device of an image scanning apparatus, the exposure control device comprising:

a control unit configured to generate a control signal according to a certain condition of said image scanning apparatus;

a driving unit controlled by said control unit and configured to generate a driving force in response to said control signal; and

an optical grid plate having an aperture, wherein rotation of the optical grid plate by said driving force changes an effective light-transmission area of the aperture by rotating the optical grid plate about;

wherein said certain condition of said image scanning apparatus is a selected resolution of said image scanning apparatus; and

wherein said effective light-transmissible area under high resolution is smaller than that under low resolution.

Regarding claims 21 and 23-25 the prior art, either singularly or in combination, does not teach or suggest an exposure control device comprising:

a control unit configured to generate a control signal;

Art Unit: 2625

an optical grid plate having a region with a light-transmissible area, the light transmissible area having an elongate shape with a narrowed central portion; and

means for rotating the optical grid plate to change the effective light-transmissible area of the region in response to the control signal;

wherein the optical grid plate is perpendicular to a light path when the control signal identifies a low resolution and wherein the optical grid plate is slanted when the control signal identifies a high resolution.

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
